# 1. Greek Reporter: Khachkar Studios Launches Groundbreaking Masterclass Series for Judeo-Christian Leaders

History will record that in the spring of 2026, something remarkable happened in the life of the U.S. Judeo-Christian community. A bold and Biblically inspired vision by Khachkar Studios of transparency, accountability, and performance took root – and the community began to grow.

At the heart of this historic moment is the launch of BREAKTHROUGHS for Judeo-Christian Leaders, a new masterclass series built on the Biblically inspired world-class benchmarking and management excellence “Framework” that is already transforming faith communities across America. Masterclass #1: Growing the “Faithful” takes the U.S. Armenian Christian ecosystem as its featured case study – and its findings are as sobering as they are inspiring.

Four powerful Breakthroughs form the backbone of the masterclass.

1. First, building a world-class ecosystem revealed 12 body parts and 12 KPIs currently underperforming with extraordinary potential.
2. Second, research confirmed the critical importance of Sunday attendance transparency while exposing its near-total absence – not a single disclosure of Sunday attendance figures was found across 68 years of Armenian church reports, publications, newsletters, and bulletins.
3. Third, “Faithful” analytics uncovered highly destructive, massive systemic misconceptions: while community leaders widely believe that 30% of U.S. Armenians attend church regularly, on-site field research across all 164 U.S. Armenian churches tells a starkly different story – the true figure is closer to 3%, ranking the community next to last among 23 benchmark Orthodox Christian groups.
4. Fourth, and most importantly, inspired U.S. Armenian Christian leaders are now rising to meet this challenge, with the bold goal of 100% growth in the “Faithful” within five years.

Among the pilot communities already leading the way is Saint Nicholas Greek Orthodox Church in Lexington, Massachusetts – one of seven churches featured on the Khachkar Studios website as an emerging world-class benchmark in transparency, accountability, and performance. Their full embrace of the “Framework” is a living proof that when a faith community dares to tell the truth about itself, something extraordinary becomes possible: the “Faithful” grow, trust deepens, and the community inspires every parish around it to do the same.

For Judeo-Christian leaders everywhere who are ready to move from the “Peak of Mount Worst Practices” to the “Pinnacle of Continuous Improvement,” *BREAKTHROUGHS for Judeo-Christian Leaders* is the guide they have been waiting for. For too long, the potential of Judeo-Christian communities in America has remained untapped – not for lack of faith, but for lack of the tools, the transparency, and the inspired leadership needed to unlock it. Khachkar Studios is changing all of that, with historic investment and a “Framework” that is already delivering results.

Cumulative financial support to the U.S. Judeo-Christian community reached \$1,107,436 by the end of March 2026 – a 25% increase over the \$883,678 accumulated through February since the program’s mid-2025 launch, with \$223,758 disbursed in March alone. Equivalent to an endowment of approximately \$31 million, these funds are part of a \$100 million commitment that is one of the largest philanthropic investments in modern history advancing Judeo-Christian faith. Accompanied by 5,000 pro bono senior management hours and monthly public financial transparency, this investment is as disciplined as it is visionary.

On the ground, the transformation is real and deeply moving. Twenty-five pilot candidates are using the free Khachkar Studios Sunday attendance counter app to track their “Faithful” with precision, posting weekly Sunday invitation videos that are reaching new audiences across six social media platforms, and developing monthly outreach programs that are bringing renewed life to their communities. Seven pilot churches – featured on the Khachkar Studios website as emerging world-class benchmarks – have gone further still, embracing the financial transparency steps that are proving so powerfully transformative in building the community trust that grows the “Faithful.” Twenty Armenian media outlets ensure that every step forward, every inspiring story, and every breakthrough is shared with the entire community.

The decline of a faith community is never inevitable – it is always a call to action, and Khachkar Studios is answering that call with everything it has.

The soon-to-be-released *BREAKTHROUGHS for Judeo-Christian Leaders* masterclass series, launching in April 2026, brings this answer to faith leaders everywhere.
